**REPLY TO OFFICE ACTION UNDER 37 C.F.R. § 1.116**

This communication is responsive to the Office Action dated October 1, 1999, Paper No.

14.

Please amend the Application as follows:

**IN THE CLAIMS:**

Please amend the claims as follows:

1. (twice amended) An interbody spinal fusion implant for insertion across a disc space between adjacent [vertebrae] vertebral bodies of a human spine, [the] said implant comprising a body having an insertion end, a trailing end, a length between said ends, and an outer surface including a thread for engaging said implant to the adjacent [vertebrae of the spine] vertebral bodies, the outer locus of said thread forming a substantially frusto-conical configuration along at least a portion of the length of said implant nearer said trailing end than said insertion end.
2. (amended) The implant of claim 1 in which said body has a substantially frusto-conical configuration along a sufficient portion of said implant that is adapted to contact the adjacent
